

**W4**

Endless worm-drive band and housing

Stainless steel AISI-304

Endless worm-drive Band and separate housing W4

Information

Endless banding with comes in rolls which are between 2m to 30m long, allowing you to clamp just about any assembly without knowing the diameter in advance. The housings are supplied separately and can be fitted easily where and when they are needed. With an endless band and a box of buckles you can cover just about any eventuality. Ideally suited for the client with temporary or occasional clamping needs.

Description	Article CT/CP/CC	Reference	Bandwidth (mm) a	Minimum band thickness b	Packing	Material
Stamped Band	CT 7-25	03011109	7	0,6	25 mts.	AISI-304 Stainless steel
Stamped Band	CT 7-2	03011117	7	0,6	2 mts.	AISI-304 Stainless steel
